

Premium performance

High load capacity

Extreme temperatures

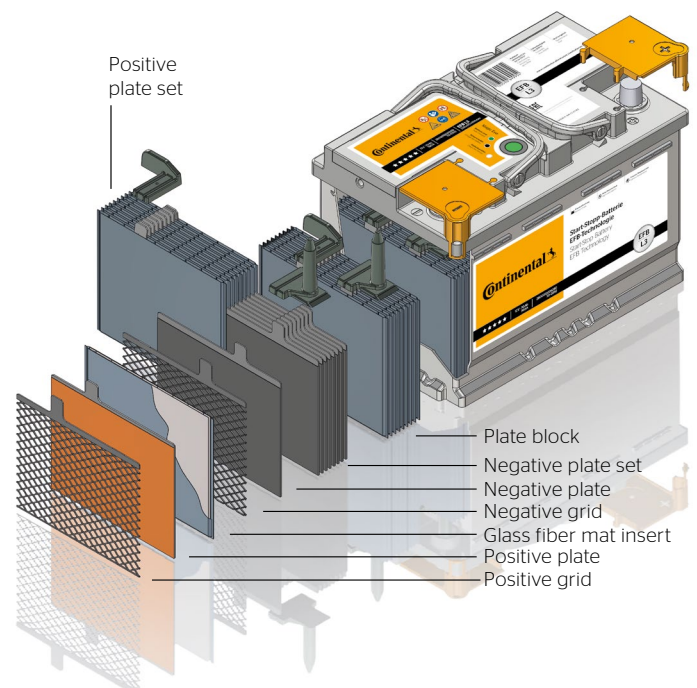

Start-stop battery with modern EFB technology

The Continental Enhanced Flooded Battery (EFB) is the right choice for vehicles with entry-level start-stop systems without braking energy recovery. It has impressive cold-start performance and enables both low-resistance and rapid charging and discharging.

All the advantages at a glance

- › Perfect for vehicles with entry-level start-stop system
- › For demanding climatic and weather conditions: 115% Cold Cranking Amps (CCA)*
- › Long life of at least two times more cycles*
- › High deep-discharge capability
- › 20% less energy consumption and greenhouse emissions*
- › Charge monitoring indicator (Magic Eye)
- › Extreme safety: 100% leak-proof
- › Maintenance-free – saves labor and costs
- › Two-year warranty

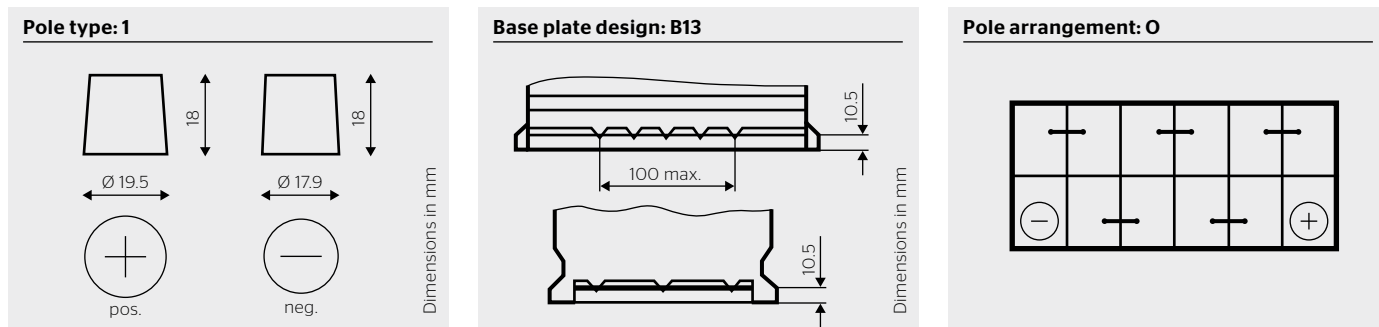

EFB technology: Battery construction

* compared with conventional batteries
